

Hello! Our school has recently introduced Sumdog Spelling - here's everything you need to know.

What is Sumdog?

Sumdog is an online learning tool which provides personalised maths and spelling practice that children love. It adapts questions to each child's level, using engaging games to build confidence and accelerate progress.

What can your child do on Sumdog Spelling?

Sumdog Spelling includes over 30 games for children to play as they practise key spelling skills. Teachers can create and set word lists which your children may be set to complete in-class or as a homework activity. Read-aloud questions help children understand and embed the words they're learning.

How does Sumdog help engage and motivate children?

As children play Sumdog spelling games, and answer questions correctly, they can earn virtual coins to spend on their avatars or to buy items for their house or garden. They're given instant feedback on the questions they've answered so they can see how they're progressing.

How do they log-in?

No need to worry about new log-in details, your child can use their usual Sumdog username and password to log-in and practise their spelling. Sumdog can be accessed on a computer, and we now have QR code logins for smartphones and tablets. Go to www.sumdog.com or download the free Sumdog app which is available on Apple, Android or Amazon.

Keeping your child safe

Sumdog follows best practices in GDPR and data security, and does not support communication between pupils.
